

**PROFILE**

For more than 14 years, I have been a freelance video editor and designer in the disciplines of digital, print, motion, branding, interactive and photography. When it comes to design, I constantly strive to learn new techniques and always progress in my skills. I love learning and taking on new and demanding challenges.

**EXPERIENCE****FREELANCE VIDEO EDITOR / MOTION GRAPHICS / DESIGNER — JANUARY 2000-PRESENT**

My eclectic skill set, attention to detail and patient personality have given me the opportunity to work with many amazing clients that span the ecosystem, across all platforms — from broadcast video and motion graphics to cinematography, photography, web and mobile coding, product and print design. With a proven history of producing and editing complex feature-length documentaries as well as creating simple social media banners, there's truly no project that is too big or small. My passion for creating the tangible is matched by my passion for marketing it.

**DIAFERO — CCO / FOUNDER — JANUARY 2012- PRESENT**

As founder of Diafero I have had the freedom to create a lifestyle brand from scratch and gain experience in everything from accounting to e-commerce, travel management to clothing design. It has been a fun experience that has made me a stronger professional while helping me to reconnect with the creativity that can get lost in the freelance world of short deadlines and small budgets.

## **EDUCATION**

## **REFERRALS**

*"Brandon is unique in the creative industry as he is a creative genius, as well as a technical expert. As a graphic designer, web developer, videographer, and editor he truly covers the entire range of expertise necessary to produce a short film, build a website, create an interactive ebook, or design a line of clothing, all of which he has done exceptionally well. Brandon can tackle the most complex of projects, and execute them with patience, innovation and grace. He is always on task, on time and on budget. Any project Brandon is involved with will benefit greatly from his extraordinary gifts."*

**Barbara B. Schmid**

**Chief Creative Officer - 2B Creative, Inc**

*"I was able to work recently with Brandon on two projects for our foundation. Brandon helped us in our branding process, and developed logo assets that matched our mission and aesthetic standards. Simultaneously, Brandon helped us redo a website for a major hurricane relief campaign we were managing (cabohurricanefund.com). He worked through all our desired updates and made the site fully bilingual in order to reach more donors and supporters. I've seen Brandon's artistic talent for years through video editing, graphic design and more. He's got a special skill set that applies to a number of creative projects and industries."*
